

Some Important Truths.

WHEN the child is born into this world the physician is present and gets about \$10 for officiating at the important event. The editor heralds the advent of the stranger and gets a cussing for making a mistake as to sex or day of arrival. After awhile the same child becomes a man; the minister is called in to perform the marriage ceremony and the parson walks off with a ten dollar bill in his pocket for his trouble. The editor is again called upon and chronicles this event by drawing on his imagination to make both the bride and groom the best and most respectful people in the country. His only pay is to be asked for a few sample copies of his paper to send to absent friends. In time, the once baby, once happy groom, but now well advanced in life man, is brought down to death. Again the physician is called in and makes his bill; the undertaker is present and officiates at the funeral and in time wants \$100 for performing the last sad rites, while the editor is expected to complete the drama by holding up the deceased as a model gentleman, a christian, and one who, at present, is singing the song of the redeemed around the throne of God in the New Jerusalem. The probability is at the same time that the baby, the groom, the dead man, had been so infernally mean and stingy that he had stunted his wife and children and had never contributed one cent to the support of his county paper.—Madisonville Hustler.

THE readers of THE HERALD will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Death of the Howes Boys.

ONE of the saddest accidents we have ever been called upon to record occurred Tuesday afternoon on Rush Fork of Toms Creek, causing the instant death of Charley and Clint Howes, sons of Jeff. Howes, two very estimable young men. The deceased, in company with another brother, were digging coal, and were at work not more than six feet from the entrance, when some large overhanging stone, which they supposed they had securely braced, came down upon them without warning with the result above stated, the other brother escaping with a few slight bruises. They were about 18 and 20 years of age, intelligent and popular, and it is a consolation to their parents and friends to know that they were prepared to meet their God, both being members of the M. E. Church. The stricken family have the heartfelt sympathy of the entire community in their great affliction.—Paintsville Paragon, Nov. 5.

A Plea For the Book Agent.

ELEVATE not the nose at the book agent. Kick him lightly. Abraham Lincoln was a bookeller. So were President Arthur and President Garfield. So was James G. Blaine. So were Senator Blair and Senator Ingalls, and Senator Carpenter and Senator Edmunds. So were Jay Gould and Collis P. Huntington. Respect the book agent. He may be greatness in embryo. He may be a Napoleon of finance. He may be—tho', as the Christian county Justice of the Peace wisely observed when the cross-eyed child was sworn to the protesting cross-eyed man, "circumstances is again him"—an honest man trying to make an honest living. Give the book agent a chance, even though it taxes your time and your politeness more than a little.—Glasgow Times.

Gov. BROWN has issued the death warrant of Jesse Brown, colored, convicted of killing John Larry while at a dance in McCracken county, fixing January 15, 1892, as the day for execution. The Court of Appeals passed on the case about a month ago, affirming the decision of the McCracken Circuit Court of July, 1891.

MR. FLOWER was frequently spoken of for the Presidential nomination which went to Mr. Cleveland in 1884, but was not seriously considered. It may be that as Governor of New York his name will carry more weight in political circles in 1892 than it did when he was regarded as simply a successful business man without a political career behind him. He is a man of the highest character, but of no strongly marked mental calibre, though ranking above the average man. As that is the kind of men who have been most frequently chosen President, it may be well not to consider Mr. Flower as an improbability for next year. However, it is a long time until the Convention meets—and, as we have before remarked, there is that man Grover Cleveland.—Frankfort Capital.

Consumption Cured.

AN OLD physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all Throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper. W. A. NOYES, 820 Powers' Block, Rochester, N. Y. 4yl

A Sensible View of the Situation.

It is hardly right or just for a society or organization to ask a paper to devote a half column or more to extolling the praise of a departed brother, who, in life, did not even take the paper, yet we are daily called upon to do so. At the present writing we have before us such a request, signed by a committee of five, none of whom are subscribers, and after mature deliberation, we deem it against our business interests to devote space to matter which would be of interest only to parties who are not patrons of the paper, and would probably never see it. Are we not right in this?

WE WANT every mother to know that croup can be prevented. True croup never appears without a warning. The first symptom is hoarseness, then the child appears to have taken cold, or a cold may have accompanied the hoarseness from the start. After that a peculiar rough cough is developed, which is followed by the croup. The time to act is when the child first becomes hoarse, a few doses of Chamberlain's Cough Remedy would prevent the attack. Even after the rough cough has appeared, the disease may be prevented by using this remedy as directed. The only safe way is to keep a 50 cent bottle of the Remedy in the house for use whenever the symptoms of the disease appear. For sale by Rose & Swango.

THE County Superintendent of Grayson county has issued an order that no school in his county shall be taught on Saturday. He said that the practice grew to an alarming extent last year, and many teachers taught out their five months schools in four months. He holds it contrary to the spirit of the law, and says the time made by teaching on Saturday will not be counted. He is correct, and all other Superintendents should follow suit.—Bourbon News.

THE Stanford Journal says: "There is every indication that the Commissioners appointed to revise the statutes are going to make a botch of it. They haven't gone at it like they know anything more than how to draw their salaries and make the expense account as great as possible. They already have a clerk and a stenographer and talk about the revision taking a year. It wouldn't require a third of that time if they were paid by the job instead of \$10 a day."
